

Electric Automatic Tape Dispenser RT-7700

The RT7000 dispenses pressure sensitive tape and some non-adhesive materials up to 2" wide.

The RT-7700 can set up to six different pre-set tape lengths in consecutive order and dispense them automatically. For example, you need a 3 m, 2 cm, 4 cm, 6 cm, 2 cm, 4 cm pieces, in that order. The machine will dispense and repeat the order. This machine is perfect for situations that need multiple different tape lengths for one procedure.

RT-7700 is designed for easy assembling and does not require tools to open the main cover to clear a jam. Very convenient for spare parts change and maintenance.

Features:

Compact size. Good design

- Two sensors can cut two rolls of tape at the same time.
- Dispense and cut a predetermined number of strips.
- Set-up the dispensing length for up to 6 different sizes in consecutive order.
- Easy to maintain and change the blade set.
- No need to use tools and instruments for disassembling.
- Easy maintenance, Easy repair
