

ProAmpac's FUL-WRAP features a self-adhering cohesive coating which bonds to itself and not to the product being packaged. FUL-WRAP is available in paper, film, film laminated to foam and paper laminated to foam. FUL-WRAP® is a premier material which is paper or high-density film laminated to foam, and cohesive coated.

### Sitting Capabilities

- > Widths down to 1/4"
- > 20" OD Maximum
- > 3" Core
- > 30# to 20 pt Kraft
- > 2 Mil to 6 Mil Film

### Features and Benefits

- > Color
- > Custom printing
- > Perfed 6" & up
- > Custom roll width & length
- > VCI protection for metals
- > UV resistant

### Materials

- > Paper
- > Film
- > Laminates
- > Ful-Wrap®
- > Tuff-Wrap
- > Cross Laminated Polyethylene
